Both Lancashire and London stake a claim to being the first to invent this famous meal - chips were a cheap, staple food of the industrial north whilst fried fish was introduced in London's East End. In 1839 Charles Dickens referred to a "fried fish warehouse" in his novel, 'Oliver Twist'.

The populace soon decided that putting fried fish and chips together was a very tasty combination and so was born our national dish of fish and chips!

- Winston Churchill

Did you know that...

Churchill's mother was an American.

In the late 19th century, it was rather common for British aristocrats to marry U.S. heiresses. One such relationship matched Lord Randolph Churchill, the third son of the seventh Duke of Marlborough, with Jennie Jerome, the Brooklyn-born daughter of a wealthy financier. The couple had two children together: Winston in 1874 and Jack in 1880. Yet the relationship purportedly soured, and Jennie was frequently absent. She remained in England following Lord Randolph's death in 1895 and would marry twice more, in both instances to men two decades her junior.
